Allen® Lift-Assist® Beach Chair #A-91500

Lightweight With Lift-Assist™ Technology To Make Positioning Easy

The Lift-Assist Beach Chair is designed for use with orthopaedic procedures using the Fowler’s or beach chair position. The chair offers unobstructed access and the Lift-Assist mechanism makes repositioning the patient quick and easy. The Lateral Slide feature enables the surgeon to move the patient closer to the edge of the OR table for increased surgical site access. The Lift-Assist Beach Chair weighs under 30 lbs (13.6 kg) without the back support panels installed.

- Attaches to the rails of standard OR tables
- 500 lbs (227 kg) patient weight capacity
- Lateral adjustment - improved surgical site access
- Lightweight - for single person set-up and removal
- Rail width 20”- 26” (50.8 cm - 66 cm) - fits a wider range of OR tables
- Spring Lock Quick Connect - easy installation and removal of head positioners
- Rail clamp indicators - display when the Beach Chair is properly installed on the OR table rails
- Small rail clamp footprint - frees up accessory rail space needed for different procedures
- No gas spring cables to repair or break
- Removable back panels increases access to surgical site
- Low-cut backboard - excellent maneuverability during total shoulder procedures
- Optional head positioner lock helps support patient’s neck

Universal™ Head Positioner

Adjusts Intraoperatively

Easy To Use Disposable

Single Knob
Releases All Joints
Universal™ Head Positioner #A-90026

Easy To Use And Protective Head Positioning For The Beach Chair Position On The Operating Room Table

The Allen® Universal Head Positioner supports the patient’s head and neck providing adjustability and ease of positioning. Designed for simple set-up and use. It supports the patient’s unique anatomy securely and comfortably and offers more versatility than competitive head supports.* In addition, the disposable straps which support the head and neck are comprised of wide soft protective padding. Straps are designed to distribute force to help reduce the risk of pressure injuries.

Ideal for use with most upper extremity procedures in the beach chair position.

- Multiple straps for secure control of patient’s head and neck
- Single knob releases all joints
- Easy intraoperative adjustments
- Adjustable to help accommodate the patient’s head
- Disposable wide soft straps minimize pressure on skin
- Lightweight and portable

- Simple set-up, easy to use
- Secure head and neck with ability to lock the desired position
- Compatible with all Allen Beach Chairs
- Device Weight (without disposable): 3.4 lbs (1.5 kg)
- Patient Weight Capacity: 500 lbs (227 kg)

Simple & Lightweight
Allen® Arm Positioner #A-92000

Spend Your Time On The Procedure, Not The Positioning

The Allen Arm Positioner delivers easy arm positioning for shoulder surgery in the Beach Chair position, as well as elbow and clavicle procedures. By indexing at the elbow, the device is able to gain complete positioning control of the shoulder joint. The revolutionary patent pending design allows the entire device to be steam sterilized and provides an unobstructed access to the surgical site. The device also has the capability of achieving a semi-locked state allowing the surgeon to simply move the arm where he wants it without having to adjust the tension.

Ideal for use with all open and arthroscopic upper limb procedures.

- No foot pedal, no hoses, no hydraulics, no power cords
- The only fully autoclavable arm positioner on the market
- Single knob releases all joints
- Lightweight device weighs only 6 lbs (2.7 kg). No cart required.
- Easy, fluid positioning for enhanced site access
- Connects over the drape, in the sterile field
- Compact and portable for easy storage
- Index at the elbow for complete control
- Quick and easy set-up
- Unobstructed access to the surgical site (no bars or foot pedal obstructions)
- Patient Weight Capacity: 500 lbs (227 kg)

Beach Chair Reusable Pad Set #A-90020

Pad Set For Use With The Allen® Beach Chairs #A-91000 & #A-90000

Combines high-density foam with a durable 4-way stretch cover for patient comfort.
Lift-Assist® Beach Chair Reusable Pad Set
#A-90040

Pad Set For Use With The Lift-Assist Beach Chair #A-91501

This pad set combines durable high-density foam with a 4-way stretch cover for patient comfort.

Allen® Beach Chair Cart #A-90100

The perfect companion, the Allen Beach Chair Cart conveniently stores the Allen Beach Chair and all of its accessories. The Beach Chair rests securely on sturdy rails at user height to help reduce potential back strain. Optional accessory hooks allow quick and easy storage for larger accessories. Deep bin affords plenty of extra storing space. Weighted base makes cart tip-resistant and reduces potential vibration during transport. Polymer base is dent-resistant. Heavy-duty casters roll smoothly. Two casters lock for safer and easier loading, unloading and storage.

One Boot Accommodates Many Foot Sizes & Left Or Right Foot

Easy To Use Buckles

allenmedical.com
Allen® Traction Boot

Active Heel™ Technology Provides Superb Security To Help Prevent Foot Slip

Positioning the leg and foot properly during trauma and hip fracture cases is critical to a less stressful surgery and successful outcome. Many hospitals are still using the original boots that may be decades old and require copious amount of tape to help secure the foot. To mitigate these challenges, Allen has introduced the Allen Traction Boot with Active Heel Technology to help prevent foot slip while providing superb security.

With its modular design, you can upgrade your existing trauma tables to the latest technology that has benefits for the patient, surgeon and OR staff.

Active Heel technology utilizes two cushioning pads on the anterior and posterior portions of the leg to provide a secure grip on the entire ankle joint versus the competition which relies on a single point of fixation.

- Active Heel Technology
- Accommodates foot from sizes 5 (female) to 14 (male)
- Universal: One boot fits left or right foot
- Easily retrofits your existing Mizuho OSI, Steris®, Maquet® and Schaerer® traction tables
- Eliminate the need for excessive taping
- Patient Weight Capacity: 500 lbs (227 kg)

Patient Weight Capacity: 500 lbs (227 kg)

Leg Holder Disposable Pads #R-S4133-V

The Leg Holder Disposable Pad is compatible with all Allen® leg holder systems. These pads utilize two special foam materials which are laminated together. The outer pad is a dense, slightly compressible material which allows for high clamping pressure to stabilize the leg. The inner pad is a soft, fully compressible material for gentle, non-abrasive contact with the skin. The leg pad secures with simple Velcro® fasteners. Length is 37.75” (95.9 cm) and width is 3.375” (8.6 cm). (Sold In Cases Of 12)
Arthroscopic Well-Leg Holder #O-AWLH

Easily and safely position the non-affected leg during arthroscopic knee procedures. Help reduce the discomfort and circulatory impairment that can result from the well-leg hanging over the edge of the table. Smooth adjustment and locks securely for precise positioning.

Minor Procedure
Arm & Hand Tables Comparison

Allen® Medical Systems offers an arm and hand table for every need. All of the tables are radiolucent with outstanding durability, backed by a two-year warranty.

- The carbon fiber, Carbon Lights™ tables utilize a frameless design to avoid perimeter interference during radiographic imaging.
- The Basic tables utilize a phenolic board with a perimeter frame to allow for radiographic imaging.

The Equalizer #R-734-05

Used when three or more digits are placed in traction, The Equalizer distributes the weight of the arm equally between each digit. This stainless steel chain and pulley system is fully autoclavable and comes with an attaching clip. The Equalizer can also be used with the Wrist Fracture System and Weightless Shoulder Suspension System.

**Required**

- Sterile Mesh Finger Trap Disposables
  See page 96

**What’s Optional**

- #O-LPA Allen® Easy Irrigation Tower
- #R-734-10 Wrist Arthroscopy System

Wrist Arthroscopy System #R-734-10

The table mounted Wrist Arthroscopy System is a stable platform and ideal for distraction of the hand, wrist, forearm and elbow. Support extensions mounted off of the tower provide wrist flexion and extension, radial and ulnar deviation and allow for dorsal and volar approaches. Autoclavable.

- Tension adjustments up to 40 lbs (18 kg)
- Allen self-equalizing Finger Traps distribute tension evenly
- Wrist stabilizer provides wrist flexion and extension
- Counter traction device eliminates need for hanging weights

**What’s Included**

- #R-734-10 Wrist Arthroscopy System
  1 Included

**What’s Required**

- #A-40018 (US/EU)* Simple Clamp
  1 Required
- Sterile Mesh Finger Trap Disposables
  See page 96

**What’s Optional**

- #O-LPA Allen Easy Irrigation Tower

*Specify Rail Type: US/EU, UK, DEN. See product page for INTL part numbers.
Sterile Mesh Finger Trap Disposables

Sterile single or double traps. Disposable, for single use only. Five color-coded sizes: Pediatric, Small, Medium, Large, Extra Large.

Sterile Starter Kit

Comes with eight finger traps in four sizes (Extra Large, Large, Medium, Small - two each)

- #R-30522-999  Double Starter Kit
- #R-30522-888  Single Starter Kit

Cases - 8 Per Case

Singles

- #A-30522-8  Single, Extra Large
- #A-30522-2  Single, Large
- #A-30522-4  Single, Medium
- #A-30522-5  Single, Small
- #A-30522-9  Single, Pediatric Trap

Doubles

- #A-30522-7  Double, Extra Large
- #A-30522-1  Double, Large
- #A-30522-3  Double, Medium
- #A-30522-6  Double, Small

Finger Trap Sizing Kit #R-50522-1

Facilitates size selection prior to opening sterile finger traps.

Schlein Hand Positioner #A-20750

Supports multiple hand positions. Innovative cleat system can be used with or without weights. Autoclavable.

What’s Included

- #A-20750  Schlein Hand Positioner 1 Included
- Rail Attachment 1 Included Not sold separately.

What’s Required

- Sterile Mesh Finger Trap Disposables See page 96
